## WIND SYSTEM – SITE ASSESSMENT FORM

Please complete and return the form below if you are interested in a wind turbine system from Apollo Renewables. It is important to include drawings, sketches and photos of the site (with approximate dimensions) for us to assess the site appropriately.

### Contact details

Name	
Address (including postcode)	
Location for the system if different from above (including postcode)	
Telephone no.	
Email	

### General information

What is the site used for (i.e. domestic property, office building, factory, school)	
--	--

### What size of system do you require

<ul style="list-style-type: none"><li>• kWp</li></ul>	
<ul style="list-style-type: none"><li>• budget</li></ul>	
<ul style="list-style-type: none"><li>• the amount of units of electricity you would like to generate per year</li></ul>	

### The site

Please provide a sketch / drawing of the site with all nearby trees and buildings marked. Also please provide approximate distances between buildings and trees, and their height.	
Are there any obstructions such as trees or buildings in the path of the prevailing wind direction (Normally from the SW)	
What are the ground conditions where the turbine could be sited, e.g. a grassed area, concrete, etc	

What are the ground conditions between the turbine location and the building's distribution board (for the cable trench)	
What is the approximate distance from the turbine to the building's distribution board area	
Is there road access to where the turbine could be sited (for delivery)	
Are there any dwellings or properties (not owned by you) near the turbine location	

### Electrical equipment

Is there room next to or near the distribution board area for the inverter and other control equipment (an area of approximately 2m x 2m would be required)	
If known, is the electrical supply single or three phase	

### Other information

Do you have planning permission, or do you require our assistance to obtain this	
Is the site in a Conservation Area, Area of Outstanding Natural Beauty or a Site of Special Scientific Interest	
Is there any other information that you feel would be relevant	

Please return this completed form to:
